FROM DESIGNS BY PHIZ AND CRUIKSHANK Complete in two large Duodecimo Volumes, Of near 1,000 Pages, bound in Cioth. PRICE ONE DOLLAR AND TWENTY-FIVE CENTS A Volume Only.

This edition of Dickens's Works will supply a vacuum, that has long been wanted, in an edition which shall combine the advantages of portable size, large and readable type, and uniformity, with other standard English authors; and it has been stereo typed from new, large-faced Long Primer Type, leaded, cas expressly for this series of books, and the edition will make

JOHN CHARLES FREMONT.

BY CHARLES WENTWORTH UPHAM.

(Formerly Member of Cougress, and one of the Writers in Sparks's American Biography.)

In one handsome volume, with accurate Portrait, and 13 fine Illustrations, drawn from Secuses taken in Daguerreotype by Col. Fremont while can his Great Expeditions.

The subscribers in offering to the American people the above carefully prepared work, written before the Presidential nomination, would state that Mr. Upham's Memoir of "the man who has opened to America the gates of her Pacific Empire" was undertaken with the assent and concurrence of the distinguished subject of the Memoir, and that many original documents appear in the book not heretofore available to other biographers. when published complete, one of the most beautiful sets of Works ever published in this country. "Pickwick Papers" will be found, on examination, to be printed on thick and the best and finest of white paper, made expressly for the work, and each of the future works will be proiusely lilustrated with all the original Illustrations by Cruik shank, Crowquill, Phiz, &c., similar to "Pickwick Papers," from the original London editions, engraved in the finest style of the art on Steel and Wood. Each work will contain between torty and fifty Engravings, illustrating the best scenes in it, and will be contained in two volumes, beautifully bound in cloth. Price One Dollar and Twenty-five Cents a Volume. The other n the same style, two volumes a month, nutil all are published

> apital, but the publisher trusts that the discriminating publi will repay him for the outlay, by a generous purchase of the different volumes as they appear. All he asks is for the public to examine, them, and he is confident they will exclain one voice, that they are the handsomest and cheapest, and best illustrated Set of Works of the kind ever gotten up in this coun-

Read what the Daily Sun says of them:

"PETERSON'S New Edition, in duodecimo form, of the Works of DICKENS, will be among the most elegant publications of our country. The 'Pickwick Pagers' have just been issued in two volumes, profusely illustrated with forty eight steel plates, from designs by PHIZ and CRUIKSHANK. They are in duodocimo form, with large type, fire paper, and handsomely bound. We advise all to read Samivel Veiller, or the trial of Burdell vs. Pickwick, for we have always regarded this first of Dickens's works as his very best. Feterson deserves a gold medal from the World's Fair for this edition, so beautiful and so cheap."

The statement of the Philodochia Public Labore.

Pickwick, for we have always regarded this first of Dickens's works as his very best. Feterson deserves a gold medal from the World's Fair for this edition, so beautiful and so cheap."

From the Editorial Columns of the Philodelphia Public Ledger. "The Duopecimo Dickens.—T. B. Peterson, the well-known and enterprising publisher, has just issued Pickwick Papers, being the first two volumes of an entirely new and complete duodecimo edition of the works of Charles Dickens. It is an ecition which is creditable to him as a publisher, and while good works of fiction are popular, will command a large sale. The volumes are enegantly printed on stout, while paper, and are illustrated with forty-eight-engravings from new steel plates. The volumes are enegantly printed on stout, while paper, and are illustrated with forty-eight-engravings from new steel plates. The volumes and printed with good, large, realable type. It will be a complete and elegant edition, and affireded at a price so moderate that every reader may have a set of Dickens upon the shelves of his library. A publisher deserves a great deal of credit who issues such a set of good works in so bandsome a style, so convenient in form, and at so cheap a price."

(Read an editorial notice from The Ladies' National Magazine for Angust)

"The Pickwick Papers. By Charles Dickens. Two vols. Philadelphia: T. R. Peterson. Beyand all comparison the most elegant edition of 'The Pickwick Papers' ever published. It is printed in duodeclimo form, each volume containing about 500 pages; the type is large and clear; the paper is neavy; and its limitations, all on steel, after designs of Cruitabank, rival the letter press in provoking ha miess mirth. We have always considered 'The Pickwick Papers' the best of Dickens a works. They have a frealmess which is wanting in many of his laver fictions. Samiyel Veller still remains his most original character no page of pathos from his pen excels the death bed of the Chancery prisoner: in humor, where we asseme. Burdell servas Pickwick

icte, when typograph gai and other merits are regarded, viz., in loth, \$1 25 per volume."

From The Evening Bulletin.
"The DUODECIMO DICKENS.—Mr. T. B. Peterson has just pub "The Duddecimo Dickers.—Mr. T. B. Feterson has just published the first two volumes of his new and complete edition of the works of Charles Dickers, containing the limitable Pickwick Papers. It is just such an edition as will delight the most fasticious book collectors—elegantly printed on stout fine white paper, and with the origina illustrations engraved on new plates. The volumes are of a most convenient size, a.d. the edution will be universally sought for, as at once the best and cheapost evar published. It deserves to have a great sale."

From The Eccaing Journal,
"Duddecimo Pickwick Papers.—We have just received from Mr. T. B. Peterson, a copy of his new and handsome edition of this well known and humorous work offiction. It is of the duodecimo size, printed on excellent paper, large clear type, and llustrated with forty eight steel engravings. Mr. Peterson deserves the thanks of the community for his enterprise in supplying a want felt by the numerous admires. Charles Dickers in America. We shall notice this new publication more at length and as it deserves on Saturdey next.

No. 102 Chestnut-st., Philadelphia. READ WHAT THE EDITORS OF THE LEADING PAPERS THINK

"This is a work which cannot fail of exerting a highly beneficial influence upon its readers, especially should they happen to be placed in some of those trying circumstances which all are occasionally subject to, and which have a tendency to make us replice at our lot, and sometimes even cavil at the wise dispensations of Providence. To all such we would say, look at these orphaned children, and endeavor to emulate their fortitude under trials of the mort agravated nature; and, while learning from them the duty of submission, draw encouragement also from the contemplation of the reward they ultimately reaped."

THE AUBIN PORTABLE GAS WORKS are now admitted to be the best known, whether for private bouses or for villages, because of their simplicity of construction and operation, their freerom from smell, and their masquated economy; they do not require mechanical skill or constant abtendance; they will work night and day if required—never clog the pipes, and eannot explode; they generate gas from any material containing it. These great giventages, in connection with the fact that with a working plan any experienced worker in metal can set up the works, make rights under our patents a safe and profitable investment. Parties in search of business will do well to investigate. If they do they will buy. We refer to our works in operation on the steamer Isaac Newton, at the Defavan House, Albany, and in many other places. Its few weeks they will be in use for several villages now in negotiation. For further information apply to N. AUBIN, No. 368 Broadway, New York; or H. Q. HAWLEY & Co., Albany.
